- Inspect the Munters equipment and check for proper operation and mechanical function.
- Adjust valves, actuators, sensors, control units, and other Munters-supplied equipment. Minor adjustments can be completed as time permits during a visit.

Recommended repairs, replacement parts, system modifications, and routine maintenance suggestions will be part of the service report provided within two weeks of a PrimaCaire visit.
- Complete the visit in a professional manner according to standard practices.
- Provide training for site maintenance staff in the day-to-day operation of Munters equipment, providing routine maintenance suggestions and clarifications, as well as troubleshooting and problem-solving. Training will take place unit-side during normally scheduled visits and is limited to one hour per visit as scheduled by the technician.

PARTS DISCOUNTS:

There is a 10% discount on all factory-supplied parts while a PrimaCaire Agreement is in effect. These parts are limited to vendor availability; excludes consumable parts, discontinued items, etc. Discounted parts may only be used on the equipment under agreement. Parts availability and discounting are limited solely to Munters supplied materials.

LABOR RATES:

Should the need arise for emergency service, repair work, or maintenance to be performed during the warranty period, Munters' labor rates will be discounted per Munters' Contract Customer rates as listed on current Billable Rate Sheet. This discount is for billable rates that would occur outside of regularly scheduled visits and beyond the normal scope of a PrimaCaire visit. Munters prices are based on a standard five-day work week. Any services required (including travel time) on a weekend, holiday or on overtime hours are subject to additional charges. A lead time of two to four weeks notice for local service technician availability and travel arrangements is required. Expediting requests require an additional premium.

Munters PrimaCaire Limited Warranty Service Plan extends the Munters Basic Product Limited Warranty (below) to provide for parts and on-site labor services by a Munters technician to perform corrective action on equipment deemed by Munters to be under warranty.

The PrimaCaire Limited Warranty Plan is limited to on-site labor time only. The customer shall be responsible for all travel labor, plus travel and living expenses incurred during a warranty visit. The warranty period shall be for the lesser of twenty-one (21) months from the date of shipment of the Product by Munters; or eighteen (18) months from the date that such Product becomes operational (collectively, the "Warranty").
